

# Microsoft Teams Rooms Devices

## Enhancing Meeting Experience with Microsoft Teams Rooms (MTR)

 Hybrid work is here to stay and with the people being spread across physical and remote locations, smooth collaboration between the teams is crucial to success, compelling businesses to rethink about how their meeting space is being equipped with the right technology and used, maximizing its value and helping the workforce collaborate effectively.

**Microsoft Teams Rooms Devices** offers you a complete modern meeting room solution that brings together the power of Microsoft Teams with pro-grade audio and video devices which is easy to use, helping you deliver an equal and consistent virtual meeting experience for all your participants, no matter which location they join from, without sacrificing security.

A complete solution connecting everyone across the hybrid workplace

### Enable Consistent User Experience

Allows everyone to be seen, heard & fully participate from anywhere

### Just Plain Easy

Easily schedule, join & participate in meetings quickly

### Enterprise-Grade Security

Keep devices protected, reliable & up to date
